

SHIELD^{me}TM DISPOSABLE 3 LAYER SMS COVERALL

SME-DCL03

SHIELD^{me}TM DISPOSABLE 3 LAYER SMS COVERALL is made with durable, breathable 55Gsm SMS fabric. SMS is composed of three layers of polypropylene material. One layer of melt blown polypropylene is sandwiched between two layers of spun-bonded polypropylene to provide outstanding protection against splashes and particulates. This unique fabric gives the SHIELDme coveralls excellent abrasion and liquid resistance, making them suitable for work environments where hazardous and non-hazardous liquid and dry particulate contaminants may be present.

FEATURES

- Breathable, composite fabric with microporous film and soft, non-woven polyolefin
- Serged seams and reinforced, high-stress areas for durability
- Protects against particulates, aerosols and liquids
- For use in hazardous and non-hazardous conditions

APPLICATIONS

Healthcare, Isolation areas, Contaminated areas, Environmental Cleanups, Disinfection and Sanitation Engineering Inspection, Pesticides Asbestos & Lead Abatement, Laboratories, Food Processing, Pharmaceutical Manufacturing

SPECIFICATION

COLOR : White
SIZE : Small, Large, X-Large, XX-Large
PACKING : 1 pc. in Nylon Bag
25 pcs. in a case
